

WHY CHOOSE PRE-ADOPTION TESTING?

Before adoption (or before anesthesia if surgery is needed), our veterinarians perform a full physical exam. However, some health issues cannot be detected through an exam alone.

That's why we strongly recommend baseline blood work, parasite and disease screening, and DNA testing. These tests help uncover hidden medical conditions, allowing for early treatment and safer anesthesia if needed. Investing in this screening means peace of mind—knowing your pet is starting their new life on the best paw possible!

IMPORTANT NOTICE

If your pet is undergoing surgery, declining pre-anesthetic bloodwork increases surgical risks.

The York County SPCA is not responsible for any complications related to undiagnosed health conditions.

The York County SPCA is dedicated to providing long-term human and animal services to residents of York County through programs that find permanent, loving homes for displaced and stray animals, help control animal population growth, investigate and prosecute cruelty offenders, and educate the general public about animal wellness and safety.

PEACE OF MIND PRE-ADOPTION PET SCREENING

**"Know more, worry less
—give your new pet the
healthiest start!"**

BLOOD TESTING OPTIONS

HEALTHY START PANEL - \$70

- ✓ *Chem 10 Blood Panel*
- ✓ Screens for diabetes, liver disease, and kidney disease—early detection can prevent long-term health issues.

COMPREHENSIVE WELLNESS PANEL - \$85

- ✓ *Complete Blood Count (CBC) & Chem 10 Blood Panel*
- ✓ Includes everything in the Healthy Start Panel, PLUS detection of anemia, infection, and inflammation.

ULTIMATE HEALTH SCREEN - \$100

- ✓ *Complete Blood Count (CBC) & Chem 17 Blood Panel*
- ✓ Our most comprehensive test! Includes everything from the Comprehensive Wellness Panel, PLUS evaluation of the liver's ability to process anesthesia safely and electrolyte levels.

PARASITE & DISEASE SCREENING

KEYSCREEN® GI PARASITE PCR - \$75 (FOR DOGS & CATS)

- ✓ *Comprehensive intestinal parasite screening*
- ✓ Identifies over 20 intestinal parasites with greater accuracy than traditional fecal tests by detecting parasite DNA. Ensure your new pet is free from parasites that could impact their health or spread to other pets. This is sent to an outside laboratory.
- ✓ The first round of deworming is provided, but follow-up testing is not included

THYROID CHECK - \$60 (FOR DOGS & CATS)

- ✓ *Total T4 thyroid check*
- ✓ Screens for hypo/hyperthyroidism. If clinically significant, we will provide the first month of medication. Follow-up blood work with your regular vet will be required in 2-4 weeks.

CANINE CARE+ - \$30 (FOR DOGS)

- ✓ *4DX Tick-Borne & Heartworm Test*
- ✓ Screens for Lyme disease, Ehrlichia, and Anaplasmosis—serious but treatable infections if caught early. If positive, we provide the first round of antibiotics!

FELINE ASSURANCE - \$30 (FOR CATS)

- Highly recommended if you have other cats at home!**
- ✓ *FeLV & FIV testing*
 - ✓ Checks for Feline Leukemia (FeLV) and Feline Immunodeficiency Virus (FIV) which are transmissible to other cats.

GENETIC TESTING

CANINE WISDOM PANEL PREMIUM - \$150

Perfect for adopters curious about their dog's heritage and long-term health risks!

- ✓ Comprehensive Dog DNA Test
- ✓ Discover your dog's breed and genetic health risks!
 - Screens for 350+ breeds, detects 200+ genetic health conditions, provides insights into traits and ancestry, and helps anticipate potential medical needs.
 - Results will be available in 3 weeks and will be sent to your email. Animals cannot be held at the shelter during the waiting period.

FELINE WISDOM PANEL COMPLETE - \$130

A must-have for adopters who want to understand their cat's genetics, health, and ancestry.

- ✓ Comprehensive Cat DNA Test
- ✓ Unlock your cat's genetic secrets!
 - Identifies over 70 breeds, screens for 45+ genetic health conditions, detects blood type and ideal weight range, and helps predict future traits and behaviors.
 - Results will be available in 3 weeks and will be sent to your email. Animals cannot be held at the shelter during the waiting period.
